Project

InfoPulse - News Feed & New Arrivals is a thoughtfully crafted college project aimed at streamlining information flow and delivering real-time updates to users. The platform combines modern design principles with efficient functionality to create a centralized hub for news and announcements. It features an engaging user interface, intuitive navigation, and seamless integration of current events and new arrivals across diverse categories. InfoPulse not only enhances access to timely information but also demonstrates a commitment to creativity, practicality, and user-centric design—making it both simple and impactful.
